

Fall 2020

Dear Teacher,

Thank you for interest in bringing your class to Sky Top Orchard for a fall tour, fun educational lesson and a visit to the great outdoors. Please register online.

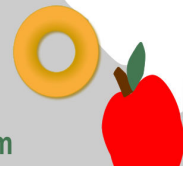

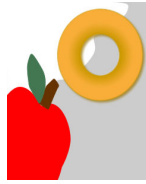

Our tours are designed for children ages 3 through 10 but we are certain that you and the other chaperones will have a great time too. In addition to the tour, you and your group are invited to experience all our mountain has to offer - a play area, a barnyard, pond, bamboo forest, acres of open space and a picnic area too.

Please fill out the online registration form as soon as you settle on a date. We've included a sheet you can use as your guide to your visit as well as our standard rules plus a map of Sky Top Orchard. The biggest thing to note is that GPS directions usually will not get you here. Take note of the approximate address of the turn-off to our road if you need to use your GPS as a guide and call us if you run into any problems.

We look forward to your visit!

Sincerely,

David and Lindsey Butler

Tours are designed for children ages 3 through 10 years old and we can accommodate groups as large as 300 with advance planning. Please note: Our most popular dates are Fridays in September. If you wish to avoid particularly large crowds and you are flexible, you may wish to choose an alternate date for your visit. Please note: Groups smaller than 20 people will be combined with other groups and will not receive private tours.

Packing List

To make the most of your visit, here's a handy list of items you may want to pack:

- ☑ **Facemasks** - We are requiring they be worn by the general public while in the Fruit Stand but not the Orchard. Please discuss our rules regarding masks for groups with our group coordinator if you have questions or concerns.
- ☑ **Sunscreen**
- ☑ **Hand Sanitizer**
- ☑ **Quarters** if you want to feed the ducks at the pond.
- ☑ **Water** - It gets hot out there!
- ☑ **Print out of Directions** to Sky Top - Don't put our physical address into your GPS!
- ☑ **Cooler** for taking home tasty treats like frozen apple cider
- ☑ **Comfortable shoes and clothing** - mountain hillsides offer uneven terrain so practical shoes make the day much more enjoyable. Dress in layers for changing fall temperatures.
